

Position: GEOSCIENTIST

Company Profile

Geoscience Earth & Marine Services, Inc. (a Forum Energy Technology Company) located in Houston, Texas specializes in geological, geotechnical, and archaeological analyses primarily in offshore environments. A leader in marine geology and geotechnical engineering, GEMS integrates the science of geology and geotechnics to master the art of subsurface geohazards and seafloor engineering.

Job Description

Conduct geologic evaluations using a suite of various geophysical data. Assigned to complex integrated projects interfacing with engineers, oceanographers, and other marine related scientists. Directly responsible for report preparation, report review, and project review. Knowledge of situational leadership needed to lead the team/project progression or participate as team member. Ability to interact and present project findings to clients, contractors, and co-workers.

NOTES: 2 openings - Fulltime
MS or PhD preferred in related field
Competitive salary and benefits package
