

December 2006

*"The University of South Carolina Columbia is putting a new face on its history department... It is busily carving out a niche for itself as a leader in Southern and African American history."*  
— **Chronicle of Higher Education**

*"The USC History program is a study in success."*  
— **The State (Columbia, S.C.)**

*"With its impressive faculty and the South Caroliniana Library, the University of South Carolina has taken its place among the very best institutions in which to study southern history and culture. The appointments the Department has made over the past decade speak for themselves, and I strongly recommend the University to my graduating seniors at Berkeley."*  
— **Leon Litwack**  
**Pulitzer Prize-winning historian**
