

## Major in Psychology

Psychology 101 must be completed and passed with a "C" or better for a major in psychology. While this course does not count for major credit, Psyc 101 may be used for General Education Requirements in Social Sciences or as a general elective. The 101 course is a prerequisite to all other psychology courses.

In addition to PSYC 101, students must take:

Course #	Description	Hours
226	Research Methods	3
227	Psychological Statistics	3
228	Laboratory	2
Two from 410 420 430 440	Abnormal Developmental Social Personality	6
Two from 400 405 450 460	Learning Cognitive Sensation/Perception Physiological	6
12 additional hours. A maximum of 3 hours may be at 300 level, 6 hours must be at 400 level or above, 3 hours must be 500 level or above	No more than a total of 6 hours of independent study or community practicum courses- 489, 498, 598, 599	12

- All major coursework must be passed with a "C" or better.
- Psychology courses from the last 3 items above, which are passed with a grade of "D" may count as general electives, but they cannot then be repeated for major credit.
- Psychology major courses may be repeated only one time to achieve the required grade of "C".
- PSYC101 and 226 must be taken within the first thirty semester hours as a Psychology Major.
- You must take or place out of Math 111 before enrolling in PSYC227.
- PSYC 226, 227, or 228 may not be taken in the same semester. These must be taken in sequence.
- All majors must take a Biological Science that has a component of the animal biological systems. Examples would be BIOL 110, BIOL 101, or 120.
